Planter Furniture

Design That Combines Two Worlds
doGrand introduces furniture that blends
a comfortable seat with a functional planter
in one seamless piece.

Its modern design complements any style,
whether placed in the garden, on the balcony,
or in your indoor living space.

Crafted from high-quality materials,
it is resistant to sunlight, rain, heat, and humidity.
The colors and patterns are embedded
into the material itself,
ensuring they won't fade or peel
over time—keeping its beauty for years to come.

More than a planter...
it's furniture that connects people with nature.
